- 7 hand-picked observability professionals to set the relevant topic
  - Janne Olkoniemi
  - Jarmo Jauhainen
  - Sami Vuorio
  - Kalle Lahtinen
  - Markus Leiman
  - Lauri Humina
  - Mikko Viitanen
  - Essi Ryttilä \*

1<sup>st</sup> meeting Wednesday 1<sup>st</sup> of June 2022

## Our Problem statement today:

- In Finland, the Observability isn't failing because of technology
- It's failing because adoption is not scaling

## Our Hypothesis

- Agentic AI can unlock Observability adoption and productivity in Enterprise Scale

But.

But.. only if the **Groundwork** is Right. And **Agentic AI** will scale what you already have – good or bad.

### Today

**Morning**, strategic insights = **The Groundwork**

**Afternoon**, technical deep dives = **The Agentic AI Acceleration**
